FAIYAJ BIN
AHMED
Full Stack Web Developer

ABOUT ME

Web programmer with a strong desire to succeed as a full-stack developer, providing a creative, adaptive, and highly flexible learning environment to a cooperative team. aiming to mix back-end and front-end expertise to create creative, user-centered solutions and to keep learning in the fast-paced field of web development.

PROJECTS

FUDO

- "The strong frontend of our pizza delivery software is powered by Next.js, which allows for better performance and SSG capabilities. For smooth content administration, we use Sanity as a headless CMS. Zustand effectively handles states, and Stripe guarantees safe payments. Tailwind CSS enables user experience customization through adjustable styling, such as bright and dark settings.

- Website Link: **https://fudo-sepia.vercel.app**

The Weirdos

- Developed the first NFT platform, "The Weirdos Club," utilizing state-of-the-art tools like Tailwind CSS for a responsive and slick design and React for dynamic user interactions.
- A smooth and Captivating user experience that invites people to become members of The Weirdos Club and discover unique NFTs, each of which is a digital work of art in the rapidly changing world of digital collectibles.

VividVentures

- Spearheaded the development of Vivid Ventures, an expansive e-commerce platform, utilizing the MERN stack (MongoDB, Express.js, React 18, Node.js) for seamless functionality and robust backend operations.
- Implemented advanced features such as search and filter capabilities, enhancing user experience and facilitating easy exploration of a diverse product catalog.
- Leveraged Framer Motion for captivating animations and Tailwind CSS for modern and responsive styling, contributing to an aesthetically pleasing and user-friendly interface.
